

Picture yourself in Chinook Health: Located near the Rocky Mountains in **southwestern Alberta**, we enjoy a wonderful quality of life while providing top quality health care. A variety of recreational facilities are available for all ages in the communities we serve and a short drive opens up unlimited opportunities for endless outdoor recreation. Some of the world's most magnificent scenery is our backdrop, including the Rocky Mountains and three UNESCO world heritage sites. And with approximately 2,400 sunshine hours per year, Southern Alberta has the warmest winter and annual mean temperatures on the prairies.

MEDICAL LABORATORY TECHNOLOGISTS I

Immediate Full-time and Part-time Opportunities

Chinook Health is seeking dynamic and motivated individuals to perform daily processing, testing, resulting and reporting of diagnostic samples in Microbiology, Immunology and the Float Pool.

The ideal candidate will have completed training from an approved training School for Medical Laboratory Technologists and be currently registered or eligible for registration with the Canadian Society for Medical Laboratory Science (CSMLS) and Alberta College of Medical Laboratory Technologists (ACMLT).

Chinook Health Laboratory Services

With 11 hospital labs and nine collection sites, the laboratory employs more than 190 regular staff members as well as casual employees. Whether you are interested in a small town atmosphere or working in a larger, regional laboratory, Chinook Health has the career for you.

Culture

Chinook Health is dedicated to hiring individuals who embody our vision and mission and who possess commitment, integrity and the desire to succeed.

Our team-orientated environment focuses on putting patients and employees first. With an ethnic diversity as unique as our geographical landscape, Chinook Health is a friendly and inviting place to work and live.
