

Bio: Kin Cheng

☞ Kin Cheng obtained his A.R.T. in Hematology and has worked with and mentored by many hematology colleagues in various laboratories and health authorities in BC, including the Fraser Health, Providence Health and currently at Vancouver Coastal Health. Although his job title has changed over the years, his passion has always been with the Professional Development of Medical Technologists. This is reflected in his previous involvement as the Director of Professional Development with the BCSLS, examiner with the CSMLS, and speaker in many Provincial and National conferences. He is currently the Regional Technical Specialist in Hematopathology at Vancouver Coastal Health.
