

Dec 12th
Thursday
6:00 – 8:00 pm

With Dr. Morris Pudek

BCSLS

Telehealth

Video Broadcast

***“CARDIAC
BIOMARKERS:
WHERE HAVE WE
BEEN AND WHERE
ARE WE GOING?”***

Costs:

BCSLS members: \$25,

MLA, MLT Non-members: \$50,

Other Hospital Staff: \$50

Myocardial infarction remains one of the leading causes of death in our society. I will review the use of markers of cardiac injury with a focus on troponin and the future role of high sensitivity assays for troponin I and T to perhaps predict those at future risk. I will also review the latest definition and classification of myocardial infarction. In addition I will discuss the application of B-type natriuretic peptide (BNP) as a marker of heart failure, which is one of the complications of myocardial injury.

Registration:

Credit Card: Online registration www.bcsls.net – education – Telehealth

Cash or Cheque: Register with the Site Coordinator at your site
