Where:

- Broadcast to over 45 sites across BC. To see which sites are participating this month, check the site list on the website. www.bcsls.net – education
- See it live in Vancouver at Women’s and Children’s Hospital. Limited seating.

Platelets and red cells play an important role in blood clotting/wound repair and oxygen/carbon dioxide transportation, respectively. Blood banking encompasses the preparation and provision of blood and blood components for transfusion purposes. Scientific approaches will be introduced to address current challenges in blood banking impacting transfusion medicine.
