

Bio: Dr. Ed Pryzdial

Ed Pryzdial obtained his Ph.D. at the University of Toronto in biochemistry, with postdoctoral training at the National Institutes of Health, Center of Excellence in Thrombosis at the University of Vermont. He is now a Scientist at the Canadian Blood Services, Centre for Innovation, and Associate Director at the University of British Columbia, Centre for Blood Research (<http://cbr.ubc.ca/>) where he holds a faculty position as Clinical Professor in the Department of Pathology and Laboratory Medicine. Among other affiliations, Ed Chairs a scientific advisory sub-committee for the Heart and Stroke Foundation of Canada, is a member of the Scientific Advisory Committee for the Canadian Hemophilia Society and is an Editorial Advisory Board member for the Biochemical Journal. The work in his laboratory focuses on clotting protein biochemistry in fibrinolysis, virology and rare coagulation disorders. The work in his lab is currently funded by the Canadian Institutes of Health Research, the Heart and Stroke Foundation of Canada and Biogen Idec.
