

# Bio: Dr. Paul Riley

Paul earned a PhD in biochemistry from Temple University in 2006, with the subject of the dissertation regarding the function of coagulation factor XI. He also did postdoctoral training in a related area before becoming a product manager and scientific affairs specialist in 2009. He has spoken to dozens of medical technologist, clinical laboratory scientist, pharmacist and clinician audiences about various topics within hemostasis and coagulation. He also has a great interest in working with clinical researchers to perform studies and publish, helping to contribute to advancing the science in this area.
